Welcome to VIRTUAL Community Education!

ABOUT COMMUNITY EDUCATION

COVID-19 update: We are live! We are remote! We are here for our community, providing our award-winning classes and programs, virtually. Register now for a variety of classes offered in synchronous or asynchronous online formats, including our dynamic Kid’s College program. And check out our YouTube page for a sampling of FREE classes. Support your favorite Community Education instructors by registering for their live remote classes. El Camino College’s Community Education department provides short-term, not-for-credit classes, workshops, career-training programs and events designed for professional and/or personal development with a special emphasis on inspiring a sense of wonder and imagination toward life-long learning. College credit is not given for classes conducted by the Community Education department. There are no transcripts or grades. Community Education is a self-supporting entity of the college and is not funded by taxpayer dollars. We are here to help! If you have a special interest or particular need for a class, please send us your suggestion(s) to commed@elcamino.edu.

How to Register for Kid’s College

Grades 1-12

All summer 2020 Kid’s College classes will be offered via live remote learning platforms.

20 20

Kid’s College
SERIOUS SUMMER FUN!
July 6-August 14, 2020

Serious summer fun.
Inspiring a sense of wonder and imagination for learning!
1 & 2 week sessions, half or full day.

Register for Kid’s College:

Call 310-660-6460. Please leave a message. We will respond ASAP.
ECCommunityEd.com
Complete the Registration Form (page 66) and email to commed@elcamino.edu

VIRTUAL OFFICE HOURS: We are working remotely!
8:30am-4:00pm Monday-Friday. Closed: June 26, 2020 (ECC Summer Holiday), July 2 & 3, 2020 (4th of July).

Not-for-credit classes: Not for K-12 or college credit. No grades assigned. Grade levels indicate the grade level children will be entering in the fall.

Important 2020 Kid’s College Dates!
✓ LAST DAY TO Register
1st session (week 1 & 2): Monday, June 22, 2020
2nd session (week 3 & 4): Monday, July 6, 2020
✓ LAST DAY TO REGISTER
3rd session (week 5 & 6): Friday, July 24, 2020

3D Game Design with Unity (Grades 3-5) #9730016

Are you ready to take your game design skills to another level? With Unity, an industry-grade design software, aspiring game designers will learn level editing, 3D modeling, impactful gameplay creation, as well as how to utilize scripts and variables. Student-created games will be available on a password protected Black Rocket website to share with friends and family. Returning students can create more advanced projects that build on previous years. *This requires a 64-bit operating system. *Compatible with MAC and Windows OS only.

3D Game Design with Unity (Grades 6-8) #9730016

Are you ready to take your game design skills to another level? With Unity, an industry-grade design software, aspiring game designers will learn level editing, 3D modeling, impactful gameplay creation, as well as how to utilize scripts and variables. Student-created games will be available on a password protected Black Rocket website to share with friends and family. Returning students can create more advanced projects that build on previous years. *This requires a 64-bit operating system. *Compatible with MAC and Windows OS only.

Academic Chess: Beginning to Advanced Levels (Grades 1-5) #460094

Did you know that playing chess increases your child’s IQ? Chess also teaches children to: think deeply, gain confidence, solve problems, develop patience, evaluate positions, compete well, visualize results, and strategize and plan. Sign up today!

Academic Chess: Beginning to Advanced Levels (Grades 6-8) #460130

Did you know that playing chess increases your child’s IQ? Chess also teaches children to: think deeply, gain confidence, solve problems, develop patience, evaluate positions, compete well, visualize results, and strategize and plan. Sign up today!

Algebra 1 Critical Concepts (Grades 7-9) #410019

Through guided discovery, co-operative learning and problem solving, you will learn first-year critical concepts algebra. The key content involves writing, solving, and graphing linear and quadratic equations, including systems of two linear equations in two unknowns.

Algebra 2 Critical Concepts (Grades 10-11) #410019

Through guided discovery, co-operative learning and problem solving, you will review critical concepts of algebra 1 and expand concepts learned for graphing and solving linear, nonlinear, and quadratic equations, an advanced look at radicals, exponents, rationals, and logarithmic equations and functions.

Battle Royale: Make Your First Fortnite® Style Video Game (Grades 3-5) #9730024

Fans of Fortnite we need you! Instead of playing the game, design your own. Using a professional 3D game development software, build levels and assets inspired by popular battle royale games like Fortnite. Students can participate in eSports League matches against other schools across the country with a chance to have their levels featured in the Black Rocket master build of the game! This course includes cartoonish action and battle sequences. Student-created games will be available on a password protected Black Rocket website to share with friends and family. *This requires a 64-bit operating system. *Compatible with MAC and Windows OS only.

Beginning Ukulele #900038

Learn basic strumming and chords along with reading of music. Classes are taught in a group setting in which each child must provide their own Ukulele. In this lively class, kids explore musical concepts that go along with the Ukulele instruction manual provided (via PDF) which are age appropriate.

Cartooning & Drawing (Grades 3-5) #460061

Do you love to draw and create your own illustrations? Join this fun Cartooning Class and learn how professional artists and cartoonists create amazing, colorful characters and make the world of cartooning a fascinating career. You will improve your drawing and cognitive skills by using basic shapes, perspective, characterization and your own imagination to draw cartoons. Learn how to illustrate two and three dimensional drawings while using pens, fabric markers and other coloring media. Become a cartoon artist this summer!

Code Breakers (Grades 3-5) #973002

Calling all future coders, programmers, & designers! Learn the basics of coding languages like HTML, JavaScript, and CSS through a series of web projects and design challenges each day and be on your way to becoming the next tech star! Whether you want to be a silicon valley CEO or the high school student who just made $1 million dollars for programming in her bedroom, this course has the essentials you need to begin your journey. Projects will be available on a Black Rocket website to share with friends and family. Returning students can create more advanced projects that build on previous years. *Compatible with MAC and Windows OS only.

Code Your Own Adventure! Interactive Storytelling (Grades 3-5) #9730022

Watch as the characters in your imagination come to life in this unique course that blends classic storytelling with animation techniques and coding. Start with a concept, design the characters, and choose not just one ending, but many! Learn how to create your own text-based adventure games with variables, conditional logic, images, HTML, CSS, and JavaScript. Student projects will be available on a password protected Black Rocket website to share with friends and family. *Compatible with MAC and Windows OS only.

Code Breakers (Grades 6-8) #973002

Calling all future coders, programmers, & designers! Learn the basics of coding languages like HTML, JavaScript, and CSS through a series of web projects and design challenges each day and be on your way to becoming the next tech star! Whether you want to be a silicon valley CEO or the high school student who just made $1 million dollars for programming in her bedroom, this course has the essentials you need to begin your journey. Projects will be available on a Black Rocket website to share with friends and family. Returning students can create more advanced projects that build on previous years. *Compatible with MAC and Windows OS only.

Code Your Own Adventure! Interactive Storytelling (Grades 6-8) #9730022

Watch as the characters in your imagination come to life in this unique course that blends classic storytelling with animation techniques and coding. Start with a concept, design the characters, and choose not just one ending, but many! Learn how to create your own text-based adventure games with variables, conditional logic, images, HTML, CSS, and JavaScript. Student projects will be available on a password protected Black Rocket website to share with friends and family. *Compatible with MAC and Windows OS only.
Coding for Kids (Grades 2-5) #9730029

This introduction to computer coding is perfect for beginners! You’ll learn to design your own video games, first with guidance through programming basic game dynamics, and then you’ll have space to creatively design your own projects. You’ll use Scratch, an MIT-developed block-based coding language, and JavaScript, a text-based coding language of the web.

Coding for Kids, Jr #9730028

This class is for our youngest computer coders! We’ll be doing a ton of hands on activities on iPads and computers, robots and more. You’ll get to experiment with different ways to create technology, and play games and solve puzzles that teach you how a computer works and thinks.

Computer Coding & Graphic Design #9730032

Use your creative skills to design your own avatars, video game characters, and eCards! For techies would want to flex their artistic skills and for artists who want to use more tech. We integrate coding and graphic design into this class as you develop a portfolio of amazing projects and designs.

Conquering High School Grammar (Grades 9 - 12) #435005

This course will cover all the basics of high school grammar: Parts of speech, sentence structure, usage, punctuation, capitalization. By the end of this 2 week course, students will be able to identify parts of speech and use them correctly. Students will be also become familiar with and use correctly such grammatical concepts as sentence structure, agreement, usage, punctuation and capitalization.

Drawing & Illustration (Grades 3-5) #460061

Do you want to learn how to draw or become better at drawing? In this step-by-step drawing class, you’ll learn through fun daily art activities. Each activity will cover a different subject or topic including Mind Craft, Snack Time Still Life, T-Rex, Picasso, and Optical Illusion Fun. You’ll learn about color theory, blending techniques, and proper use of materials and tools including pencils, pens, and colored markers, all while you’re creating your daily masterpieces!

Drawing & Illustration (Grades 6-8) #460061

Do you love the sensual pleasure of beautiful, aromatic soaps but hate the high prices? Why not learn to make your own for a fraction of the retail price? Perfect for gifts, bathroom decor, and for people with sensitive skin. You will also learn to make unique cleansing gels and luxurious bubble bath soap. You’ll leave with the soaps you make and the knowledge you need to make more at home. This is a hands on class, dress according. Please note: Students under 18 years of age are required to submit a signed (by parent or guardian) Kid’s College Release form—contact office for form: 310-660-6460.

Geometry Critical Concepts (Grades 9-10) #410020

Students will learn the fundamentals of geometry during this class while creating a collection of work that will guide them in their future studies. Topics will include points, lines, planes, segments and angles, triangles, symmetry, parallel and perpendicular lines, distance, midpoint and more. Problem solving, logic, reasoning, and Algebra skills are integrated within the course.

Fun with Soap Making (Ages 12 & Up) #110029

In these fun group Piano classes, your child will learn the joy of music theory along with basic concepts of reading music. Each student is provided with their own keyboards to use during class (FOR LIVE REMOTE ONLINE CLASSES: Students must have a keyboard or IPAD with a piano app on it.) Music/Instructional handouts will be emailed via a PDF file.

Improving Reading Comprehension & Reading Skills (Grades 3-4) #430047

This course will teach your 3rd or 4th grader the skills she/he needs to become a better reader. Through fun and creative skill-building activities that will include leveled reading, literature circles, and writing activities, this course will focus on improving reading fluency, understanding, and comprehension. Best of all, your child with learn about the joy of reading and the importance of reading as the foundation for all learning. Plus, your child will get a head start for the upcoming school year through reading practice and skills review!

Intro to STEM with LEGO® (Grades 1-2) #1300012

Let your imagination run wild with Play-Well TEKnologies and tens of thousands of LEGO® parts. Build engineer-designed projects such as: chugging Steamboats, enchanting Moon Bridges, and bustling Airports. Design and build as never before and explore your craziest ideas. Play-Well Online STEM Summer Camp (Materials Required) LEGO® and all materials required for the class will be mailed to your home: $30 materials fee

Intro to STEM with LEGO® (Grades 3-5) #1300019

Become an inventor of the future! Learn ‘rapid prototyping’ and problem solving as you conceptualize and design a product to solve a critical global issue. Each day begins with inspirational profiles of young inventors, such as the eleven-year-old who coded a robot to find victims of natural disasters. Next, research a problem to tackle in medicine, architecture, the environment, or a topic of your choosing. Once your vision is complete, learn how to draft 2D designs, create 3D models, and develop a website to pitch your ideas to the class. Student projects will be available on a password protected Black Rocket website to share with friends and family. *Compatible with MAC and Windows OS only.

Inventor’s League - Prototyping for the Future! (Grades 6-8) #9730019

Become an inventor of the future! Learn ‘rapid prototyping’ and problem solving as you conceptualize and design a product to solve a critical global issue. Each day begins with inspirational profiles of young inventors, such as the eleven-year-old who coded a robot to find victims of natural disasters. Next, research a problem to tackle in medicine, architecture, the environment, or a topic of your choosing. Once your vision is complete, learn how to draft 2D designs, create 3D models, and develop a website to pitch your ideas to the class. Student projects will be available on a password protected Black Rocket website to share with friends and family. *Compatible with MAC and Windows OS only.

JavaScript Programming (Grades 2-5) #9730031

You’ll be coding like a pro with JavaScript, one of the top programming languages of the web. You’ll build web apps with user activated fire breathing dragons, bugs that move at your command, and crazy characters that say the weirdest things!
**Minecraft® Modders (Grades 3-5) #9730003**

If you love the game Minecraft and always wanted to design your own world, this class is for you! Learn how to create a custom map, the basics of creating 3D models using a new software to design your very own objects, how to build with Redstone and Command blocks, and create custom textures for you to import at home or share with friends. Students must own a Java version of Minecraft to take this class. Tablet, phone, and game console versions of Minecraft are not compatible. Parent email address is required to use 3D modeling software. Returning students can create more advanced projects that build on previous years. *Compatible with MAC and Windows OS only.

**Minecraft® Animators (Grades 3-5) #9730017**

Create the next popular animated Minecraft video on YouTube! Practice the same skills professionals at Pixar and Disney Animation Studios use. Discover the process of keyframing and tweening, how to use it to bring your own animated stories to life, and how to publish your content on YouTube. Student projects will be available on a password protected Black Rocket website to share with friends and family. Mac users can play their project at home, but will not be able to edit the project without a PC. Returning students can create more advanced projects that build on previous years. *Compatible with MAC and Windows OS only.

**Minecraft® Designers (Grades 3-5) #9730020**

If you love the game Minecraft and always wanted to design your own world, this class is for you! Learn how to create a custom map, the basics of creating 3D models using a new software to design your very own objects, how to build with Redstone and Command blocks, and create custom textures for you to import at home or share with friends. Students must own a Java version of Minecraft to take this class. Tablet, phone, and game console versions of Minecraft are not compatible. Parent email address is required to use 3D modeling software. Returning students can create more advanced projects that build on previous years. *Compatible with MAC and Windows OS only.

**Minecraft® Modders (Grades 6-8) #9730003**

If you love the game Minecraft and always wanted to design your own world, this class is for you! Learn how to create a custom map, the basics of creating 3D models using a new software to design your very own objects, how to build with Redstone and Command blocks, and create custom textures for you to import at home or share with friends. Students must own a Java version of Minecraft to take this class. Tablet, phone, and game console versions of Minecraft are not compatible. Parent email address is required to use 3D modeling software. Returning students can create more advanced projects that build on previous years. *Compatible with MAC and Windows OS only.

**Minecraft® Animators (Grades 6-8) #9730017**

Create the next popular animated Minecraft video on YouTube! Practice the same skills professionals at Pixar and Disney Animation Studios use. Discover the process of keyframing and tweening, how to use it to bring your own animated stories to life, and how to publish your content on YouTube. Student projects will be available on a password protected Black Rocket website to share with friends and family. Mac users can play their project at home, but will not be able to edit the project without a PC. Returning students can create more advanced projects that build on previous years. *Compatible with MAC and Windows OS only.
create a design portfolio to showcase your work! No prior experience is necessary and 3D designs will be available on a password protected Black Rocket website to share with friends and family. *This is a limited release only available for BR Instructor Creator Corps Schedules. *Compatible with MAC and Windows OS only.

**Python Programmers (Grades 3-5)** #9730015

Want to learn the world’s fastest-growing programming language favored by Google, NASA, Youtube, and the CIA? Learn how to code with Python to create engaging apps and games. Each lesson takes you step-by-step on a programming path that will let you challenge friends with fun content you create from start to finish! Returning students can create more advanced projects that build on previous years. *$10 license fee per student with this class. *Compatible with MAC, Windows and Chrome OS.

**Python Programming (Grades 6-8)** #9730030

You’ll learn to code like a professional programmer using Python, one of the most popular multipurpose computer languages. You’ll program games like Rock, Paper, Scissors, Mad Libs, and Emoji Generators. You’ll also get to experiment with programming hardware using your Python skills!

**ROBLOX® Coders & Entrepreneurs! (Grades 3-5)** #9730023

Discover how to code in the Lua language while playing and designing worlds in ROBLOX®, an online universe where you can create anything you dream of. This new class combines game design concepts, coding, and fun! Young entrepreneurs will also learn how to navigate ROBLOX’s fast-growing marketplace to publish their games. Student-created games will be available on a password protected Black Rocket website to share with friends and family. *$10 license fee per student with this class. *Compatible with MAC and Windows OS only.

**ROBLOX® Coders & Entrepreneurs! (Grades 6-8)** #9730021

On your marks, get set, create! Blast off in making your first 3D Mario Kart® and Crash Team Racing® style game! Design your own tracks and customize your karts and characters. Using a professional 3D game development software, students will combine their creations into their own kart racing game that they can play with friends and family at home. Students can participate in eSports League races against other schools across the country with a chance to have their characters featured in the Black Rocket master build of the game! Student projects will be available on a password protected Black Rocket website to share with friends and family. *This requires a 64-bit operating system. *Compatible with MAC and Windows OS only.

**Robotics & Coding (Grades 1-5)** #9730033

Students will get to build and program robots! They’ll build circuits, experiment with different sensors, and write programs so that their robots complete challenges and dodge obstacles. $40 materials fee includes rental of 2 robots (DASH and R2D2) that will be delivered to your home to use during the two-week class.

**Rocket Kart Racers: Design A Mario Kart® Style Game (Grades 3-5)** #9730021

On your marks, get set, create! Blast off in making your first 3D Mario Kart® and Crash Team Racing® style game! Design your own tracks and customize your karts and characters. Using a professional 3D game development software, students will combine their creations into their own kart racing game that they can play with friends and family at home. Students can participate in eSports League races against other schools across the country with a chance to have their characters featured in the Black Rocket master build of the game! Student projects will be available on a password protected Black Rocket website to share with friends and family. *This requires a 64-bit operating system. *Compatible with MAC and Windows OS only.

Wow, Look What I Wrote Today (Grades 1-3) #435001

You will love hearing your child say Wow, look what I wrote today! when they embark on this reading, writing and imagination-adventure class that will teach your child to write wow sentences and stories.

Each day, students will read an awe-inspiring wow book by a famous children’s author. Next, they will move on to create their own story inspired by the style and genre of the exciting book they just read. Before long, your child will be writing colorfully detailed sentences and imaginatively entertaining stories. Wow!

Writing Skills Development For High School Composition (Grades 9-12) #435026

How do you make the grade in high school English? Your best bet is to conquer that staple of every English course: the multi-paragraph essay. This class will give you the tools to succeed: strategies for pre-writing, organizational tips, and surefire ways to create interesting sentences. Students will work one-on-one with teacher and participate in workshop activities with peers.

YouTube® Content Creators (Grades 3-5) #9730027

Find your voice and leave your mark on the world! Whether you are six or sixty, it’s time to start a career as the next YouTube star. Explore the variety of content and personalities that exist on YouTube and how to find your own niche. Learn the Dos and Don’ts of the platform and how to practice good digital citizenship. Develop your on-camera presence, your own channel branding, and professional editing skills. Take home a plan for launching your own channel with the content created in class! Student projects will be available on a password protected Black Rocket website to share with friends and family. *A webcam is required for this course. *Compatible with MAC and Windows OS only.

YouTube® Content Creators (Grades 6-8) #9730027

In this fun, hands-on class, students will discover simple techniques for making one-of-a-kind bath products (shampoo, shower gel, bubble bath, bath salt & exfoliate). Topics include: Ingredients and equipment, Where to obtain supplies, Tips for making bath gels, Adding herbs or glycerin extracts, and aroma therapeutic effects of oils. Why purchase expensive commercial bath products when you can delight in making your own? Class is hands-on so please dress accordingly. Supplies list and informational handouts will be emailed to you in advance of the class.

Belly Dance (Beginning) #800031

Have you always wanted to learn to belly dance? Join us for shake and shimmy Saturdays! Warning: Once you learn a few belly dance moves, you’ll never want to stop. In this low-impact, high-fun dance class, you’ll learn cool swanky moves such as the snake arms or I Dream of Genie-like head tilts. You’ll get lost day dreaming of an exotic desert oasis while learning to glide and flutter like a butterfly with your dance veil. Plus, you’ll also get to learn to play a new instrument—nothing sounds more beautiful than the sound of finger cymbals. All of this and more, while you shimmy ‘til you drop! Recommended belly dance gear (as discussed at your first class) includes a veil, cymbals, and a hip scarf, all of which are optional. Some items may be purchased directly from the instructor. Optional $48.00 materials fee may be paid directly to the instructor for purchase of a belly dance veil and cymbals.

Saturdays 2:00 PM - 3:00 PM; Ongoing, join class anytime!
Starting June 6, 2020, ending August 1, 2020; (No class on July 4, 2020)

Tuition: $89
Instructor: Shirin
Location: zoom

Belly Dance (Intermediate) #140003

Raq (rock) your shimmies into overdrive! Take your beginning belly dance knowledge to the next level—you’ll learn intermediate Arabic, Egyptian, and Turkish style steps, veil movements, and finger cymbal techniques along with intermediate choreographies in the style of American Cabaret Belly Dance. You’ll also love learning how to play finger cymbals while dancing and how to practice freestyle dancing. Plus, you’ll be introduced to the different types of rhythms in Middle Eastern music and their interpretation in the dance.

Saturdays 3:00 PM - 4:00 PM; Ongoing, join class anytime!
Starting June 6, 2020, ending August 1, 2020; (No class on July 4, 2020)

Tuition: $89

**Medical Assistant Training Program**

Pay per module or purchase entire 6-module series + Externship at discounted rate $3,999!

- **240 total classroom hours + 160 Externship hours**
- **Textbook and clinical supplies included!**

**Upcoming Start Dates:**
- **Summer Classes:**
  - Start September 26th!
  - **Fall classes:**
  - Start September 19th!

In just 30 weeks of lecture, labs, and “real-life” hands-on practice and a 160-hour externship/apprenticeship, you will be optimally prepared to perform all required tasks and duties required in an ambulatory care or outpatient care facility. Upon successful completion of the program, you will be qualified to apply for a certificate of completion. A highly qualified Medical Assistant can make or break a Doctor’s office, clinic, or hospital. Set yourself a part from the crowd with instructor Leonor Gonzalez.

Instructor Leonor Gonzalez is a highly sought-after instructor with an engaging and caring teaching style. She brings more than 20 years of experience in the medical field to her classroom—including work in rheumatology and clinical research. She holds a Bachelor in Higher Education Management from Everest University (formerly Florida Metropolitan University) and obtained her teaching credential in Health Sciences & Medical Technology from LACOE.

Pharmacy Technician Training Program
#3240001

Pharmacy Technician jobs are among the fastest growing occupations! 32% growth expected by 2020.

Train to become a licensed pharmacy technician in as little as 7 months! In this 260-hour program, you will learn what it takes to become a successful pharmacy technician. Topics covered include: pharmacology for technicians, pharmacy law and regulations, sterile and non-sterile compounding, quality assurance, and medication safety. Learn what it takes to assist the pharmacist in preparing and mixing prescriptions, maintaining patient records, purchasing and inventory management, billing and reimbursement, and more. Program includes a 120-hour externship where you will receive hands-on training in a pharmacy under the direction of a pharmacist. Upon successful completion of the Pharmacy Technician program, you will be eligible to apply for your California Pharmacy Technician License. Your tuition includes affidavit for licensure, background check/drug screen required for externship, liability insurance, and certificate of completion. This program fulfills the education requirements of the California Board of Pharmacy (Business and Professions Code Section 4202) for pharmacy technician licensure. Textbook, lab coat/scrubs, license application fee are not included in tuition. Salary Information: $40,170 Annual Mean Wage in California (Source: https://www.bls.gov/oes/current/oes292052.htm#st)

Certified Phlebotomy Technician Course (CPT1)
#234033

Employment of phlebotomists is projected to grow 25 percent from 2014 to 2024, much faster than the average for all occupations. In the state of CA, the average hourly mean wage for phlebotomists is $19.89. --Bureau of Labor Statistics

Phlebotomy Technicians are in demand as one of the fastest growing occupations in healthcare. Launch your career as a Phlebotomy Technician, collecting blood samples from patients in a hospital, clinical laboratory, medical office, or clinic. Through lectures and hands-on training, learn what you need to know about the circulatory system, venipuncture technique and specimen collection, risk factors and complications, and quality assurance. This course provides a complete learning experience—with 48-hour classroom instruction and a 40-hour hands-on externship. It also prepares you to take the National Certification exam to become a Certified Phlebotomy Technician 1 (CPT1). A certificate of completion is awarded upon successful completion of the course. Course fee includes books, supplies, study guides, all class materials, Exam preparation and externship. Payment plan available; $665.00 due at the time of Registration, no later than one-week prior to start of program, 2nd payment due by 3rd week of class and 3rd/final payment by 6th week of class. Tuition does not include required State License fee of $100.00 or the National Certification exam fee of $115.00. Prerequisite: You must be at least 18 years old and have a high school diploma or equivalent.

Contractors State License Board Exam Test Strategy #300131

In this part two continuation course to the How To Start Up a Construction or General Contracting Business, the entire focus will be about learning testing strategies. You’ll learn to identify the intent of the questions on the Contractors State License Board Exam. The multiple choice examination with four choices per question are written to provide only one “best” answer, this class will help you make the correct choices so that you pass the exam on your first attempt. If you pass the test the first time, you won’t ever have to take it again!

Saturday, June 6, 2020
8:00 AM - 12:00 PM
Saturday, July 11, 2020
8:00 AM - 12:00 PM
Saturday, August 1, 2020

Installing solar panels are becoming more and more popular. Thousands of home & commercial owners are looking for “Solar Installers” to install solar panels on their roof-top. Thousands of experienced solar installers are doing the same kind of work as independent contractors. In fact, independent contractor positions are in high demand. By 2020, 65% of solar installation will be done by independent solar installers. This course will prepare participants to design and install solar photovoltaics on roof-tops. This class will cover solar, electrical, and city code as well as electrical writing. Materials fees $40 (Covers printed copies & CDs) to be paid to the instructor on the first day of class. Optional information on how to receive hands-on training on real world installation with Grid Alternatives will be available to students upon request.

Students may reach out to our office at 310-660-6460 after successful completion of the course to purchase a $10 certificate of completion or a $5 letter of completion. Please allow 1-2 weeks for processing. Students may request to pick up the certificate at our office during business hours 9am-4pm or have it mailed.

Mon, Wed 6:30 PM - 9:30 PM; 9 sessions; starting July 6, 2020, ending August 3, 2020

Notaries! Become a Loan Signing Agent -- Certificate Awarded #210044

Already a Notary? NOW WHAT? Learn how you can easily turn being a Notary into a “flexible” part time or full-time career! A Loan Document Signing Agent is a Notary with expertise in signing and notarizing of loan documents within the real estate community. Because you are a Notary, you are halfway there! You can earn $50.00-$500.00 per signing. Great News! Why? It takes about an hour or less to complete a signing. Enroll to learn how you can use your Notary skills to maximize your income. You will learn: the duties/limitations of the Loan Signing Agent, industry terms, step-by-step procedures for completing a loan signing, job expectations, what notary skills are needed and how to market yourself to secure clientele, including a bonus list of marketable companies. It is recommended that you bring a highlighter pen and a sack lunch.

Saturday, June 20, 2020
10:00 AM - 4:00 PM

Tuition: $99
Instructor: Notary Public Seminars
Location: Online
Materials Cost: $60

Foster & Kinship Care Education

FREE classes for foster & kinship care resource parents focusing on skills needed for foster parents or relative caregivers to care for children in out-of-home care, as well as themselves.

Our Mission: The mission of the El Camino College Foster & Kinship Care Education program is to provide quality education and support opportunities to caregivers of children and youth in out-of-home care so that these providers may meet the educational, emotional, behavioral and developmental needs of children and youth in the foster care system.

Why is the Foster & Kinship Care Education Program Important?
From 1989 to 1998, the number of children in California’s foster care system has grown by more than 50%—from 68,000 to 105,000. The dramatic increase in the state’s foster care population has been attributed to many factors: there is a greater number of children living in poverty, increasing numbers of parents who abuse alcohol and drugs, and increasing cases of child abuse and neglect. The El Camino College Foster & Kinship Care Education program plays a vital role in providing licensed foster parents and relative caregivers with the training and education that will help them in meeting the multifaceted and often complex needs of the foster children in their care. El Camino College and other community colleges play an important role by providing over 25,000 hours of education/training to foster parents and relative caregivers.

ONLINE CAREER TRAINING COURSES

Certified Information Systems Auditor (CISA)
This online CISA training course will prepare you for the five key domains: auditing, governance, implementation, management, and protection. (Voucher Included)

AWS System Operations Certification Bundle
You will be introduced to Amazon Web Services (AWS) and how to create automatable and repeatable deployments of networks and systems on the AWS platform. You will also be prepared to sit for the AWS Certified SysOps Administrator Associate exam.

CompTIA Advanced Security Practitioner (CASP)
The CASP certification is one of the most valuable certifications in the IT security industry. This online course will prepare you to sit for the CASP certification exam, and the exam cost is included. (Voucher Included)

CompTIA Linux+
Learn the necessary skill-sets to perform maintenance tasks with the command line, install and configure a basic network in Linux. (Voucher Included)

CompTIA Network+
Prepare for a career as a network technician and quality to take the CompTIA Network+ certification exam as you master basic networking concepts and gain a fundamental knowledge of network design, security, routing, and switching. (Voucher Included)

Certified Ethical Hacker
This online Certified Ethical Hacker (CEH) course will teach you the valuable details that every information security professional needs to know. (Voucher Included)

Cisco CCNA Certification Training
You’ll master certification-based topics for networking essentials, so you can implement and administer Cisco solutions.

Certified Information Security Manager (CISM)
CISM is one of the most valued certifications in the IT security industry. This online course will prepare you to sit for the CISM certification exam, and the exam cost is included. (Voucher Included)

CompTIA Network+ Certification Training
Prepare for a career as a network technician and quality to take the CompTIA Network+ certification exam as you master basic networking concepts and gain a fundamental knowledge of network design, security, routing, and switching. (Voucher Included)

CompTIA Linux+ Certification Training
Prepare for a career as a network technician and quality to take the CompTIA Linux+ certification exam as you master basic networking concepts and gain a fundamental knowledge of network design, security, routing, and switching. (Voucher Included)

Microsoft Certified Solutions Associate (MCSA): Server 2012
This online Microsoft Certified Solutions Associate (MCSA): Server 2012 course will prepare you to install, configure, and manage a Server 2012 network.

IT Foundations Bundle
This course teaches the basics of IT Service Management (ITSM) and project management, while incorporating ITIL, SIAM, and DevOps framework, concepts and processes. You will also be prepared to pass the globally recognized ITIL Foundation, SIAM Foundation, and DevOps Foundation certification exams.

Microsoft Certified Solutions Associate (MCSA): Server 2012
This online Microsoft Certified Solutions Associate (MCSA): Server 2012 course will prepare you to install, configure, and manage a Server 2012 network.

SSCP Systems Security Certified Practitioner
This course is an ideal course for individuals interested in advancing their knowledge of information and systems security. (Voucher Included)

CompTIA A+ Certification Training
CompTIA A+ certification is the industry standard for validating the skills of entry-level computer technicians.

Courses Features:
- 6-18 month self-paced, start anytime
- Feedback and materials included
- Prepare for industry certification
- Certification exam vouchers included
- Financial assistance available
- Student advisors available throughout training

Please register early. Class sizes are limited and early registration may assure your place in a popular class. Classes that do not meet minimum student enrollment may be cancelled before the first session. Your timely registration may help ensure this necessary enrollment figure.

CANCELLATION POLICY
Please choose your classes carefully. No refunds issued unless a class is cancelled by El Camino College. Credit vouchers in the amount of the class registration fee less a $10 service fee per class will be issued upon request 3 full business days before the first class meeting. Credit Vouchers are applicable toward a future Community Education class and are valid for 3 years.

EXCURSION AND SPECIAL EVENT CANCELLATION REFUND REQUEST: Special policy for excursions and special events: Refund requests for excursions and special events must be received no later than 2 weeks (10 full business days) before the scheduled excursion/event.

IF A CLASS IS CANCELLED
Every attempt is made to contact students ahead of time. A full course fee refund will be issued within four to six weeks.

TRANSFERS
To transfer to another class, requests must be received at least 3 full business days before the original class meets. A $10 transfer fee will apply.

“Adventure is worthwhile.” --Aesop

“You’re braver than you believe, stronger than you seem, and smarter than you think.” --Winnie The Pooh

“When you see someone putting on his Big Boots, you can be pretty sure that an Adventure is going to happen.” --A.A. Milnie (Winnie-the-Pooh author)
